

# Amazon VPC-2

CLARUSWAY  
WAY TO REINVENT YOURSELF

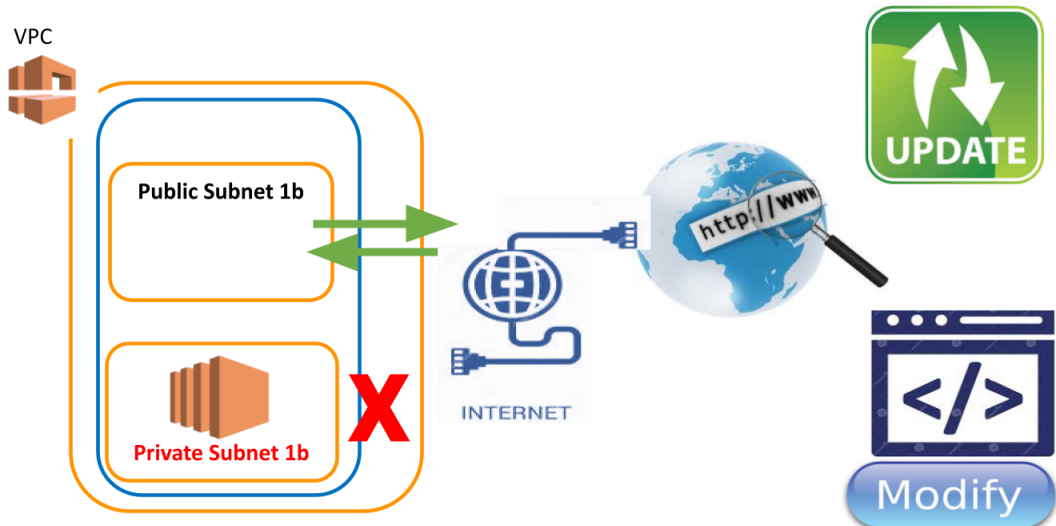

## Elastic IP

- An Elastic IP address is a **Static IPv4 Address**
- Legal requirement for some applications or license policy to may render you to use static IP. In addition, some AWS components/services such as NAT Gateway and Route 53 may need Elastic IP.
- Elastic IP is free of charge **as long as they are being used**. However, you will be charged for each EIP if you reserve and not use it.
